Subject-Information regarding roll out of Comprehensive Pension Management System project of DoT

The Department of Telecommunication is under the process of Development of Comprehensive Pension Management System for the Pensioners of DoT as well as BSNL pensioners which will soon be rolled out.

2. In the new process, data will be uploaded by BSNL on monthly basis centrally in the CPMS. All SSAs will have access to the data of pensioners who are to retire in one year through specific login id. The SSAs can then verify the data and create login id for pensioners in the eighth month prior to retirement. Thereafter the pensioner would get access to his data and can accept it or seek corrections, for which the request will be sent to BSNL for updation

3. An SOP will be made available to intimate the change of process to all CGMs in respective Circles to enable them to shift to CPMS software and enable cooperation with the CCA offices for smooth roll out.

4. The pilot for CPMS will start in July 2018 and the complete roll out should be completed by October' 2018. SSAs may be informed in advance regarding the above mentioned timelines, so that the migration will be completed smoothly to ensure that no inconvenience is caused to the pensioners.

5. This issues with the approval of Competent Authority.
